Network North East
and North Cumbria

WE ARE

RESEARCH + ACTIVE

What does this mean for me?

Our practice is research active and you may be asked to be involved in a research study. Carrying out research helps us to keep improving health and social care.

You are free to choose whether or not to take part in any study you're approached about.

Ask your doctor, nurse or healthcare professional how to take part, or visit www.BePartOfResearch.nihr.ac.uk
